

I listen to K-LOVE on 90.7 every day. Please do not jeopardize an amazing source of encouragement for me and families nationwide by letting LPFM stations take priority over my beloved K-LOVE. It is the best alternative to negative, socially divisive, and downright raunchy radio stations out there. Can you really take away a Radio station that lifts the spirits and brings unity to our divided country? I think you will find a drop in general radio listening if you switch to LPFM instead of current FM translators. Please continue to allow K-Love to bless my community and the communities around the country.
